Subject: Meet Your Maitland First Responders | Public Works Week

Meet Your Maitland First Responders

EMS Week, presented by American College of Emergency Physicians and National

Association of EMTs, brings together local communities and medical personnel to publicize safety and honor the dedication of those who provide the day-to-day lifesaving services of medicine's frontline. To honor the dedication of those who provide the day-to-day lifesaving services as medicine's front line to the citizens and visitors of the City of Maitland, the City has proclaimed the week of May 17 through May 23 as EMS Week and invites all residents to stop by Fire Station #45 on Independence Lane or Fire Station #47 on Fennell Street, to meet your emergency medical providers and to tour the facilities. While you are at it, have your blood pressure checked for free!

Celebrate National Public Works Week

"Community Begins Here" is the theme for the 55th National Public Works Week, celebrated the third week of May by the American Public Works Association. The City of Maitland recognizes the 60 employees in the Public Works Department who operate the City's public works programs and maintain its infrastructure.

- The Public Works staff represents a quarter of the City's workforce within nine divisions: Administration, Water Production/Distribution, Wastewater Collection, Stormwater/Lakes Management, Streets and Facilities Maintenance, Fleet Maintenance, Grounds Maintenance, Arbor Care, and City Engineering Services.
- Public Works provides Maitland residents with drinking, irrigation, wastewater, and fire-protection water services. Staff is responsible for upkeep of lakes, storm drains, and wastewater-collection systems within Maitland proper. It maintains more than 110 sites including City buildings, grounds, rights-of-way, ballfields, and parks.
- Similarly, the staff repairs and maintains vehicles and equipment, City-owned streets, and City-owned properties. The Public Works Department also provides staff liaisons for two resident boards, the Transportation Advisory Board and the Lakes Advisory Board.

The American Public Works Association describes this year's "Community Begins Here" theme: "There would be no community without the quality of life Public Works provides. There would be no community to police and protect, no public to lead or represent. This year's theme speaks to the essential nature of Public Works services in support of everyday quality of life."
